The fact you work as a chat-line op still fascinates us, Jordan. What was the job interview like?
It was straight forward enough. I talked to the boss over the phone to set it up and he said he liked the sound of my voice.

You didn't have to describe your pants, then?
No. I wasn't wearing any that day.

You look a lot older than 19, Gillian.

A few people have said that but it used to be the other way around. When I was 18 I looked like a 16-year-old and couldn't get into clubs. The only way I ever had a chance of getting through the doors was to flirt with the bouncers.

No club could be worth *that* amount of effort.

I only ever bothered with the genuine hunky ones, although flirting rarely got me into the club anyway. I'd usually go back to their place!

Adele, is it okay if we ask no questions and just sit here and stare at you for a while?

I guess so. You're one of those quiet types, are you? The sort that just looks but never gets around to actually saying anything.

We thought women liked the shy and retiring sort. Makes them seem mysterious, doesn't it?

Or plain scared. No, I like confident men, someone who can handle themselves and deal with whatever life throws their way. Besides, confident guys are usually wild when it comes to sex!

Any examples?

In my experience men who are really gregarious go all out for it in the sack. I once slept with this salesman who was as good at fucking as he was talking. And boy could he talk!

A salesman, eh? Did you have a good look at his products?

A good look and a damn good feel! Yeah, I gave everything a thorough testing out that day.

What was he selling anyway?

Well that's the irony. He was trying to flog 'Better Sex' videos!

5,000,000

How about we try and sell ourselves to you?
Have you got anything to advertise in the first place?

We know everything there is to know about sex.
Ah, but that's all theory, isn't it? Practice is what counts.

You sound like a science teacher. Any good at teaching?
The best! But strictly private lessons, I'm afraid.

Can we book some?
No. There's a catch with my classes. You see, I have to fancy my students. And you lot… well put it this way, I've seen more attractive looking alligators!

This shoot is something of an exclusive, isn't it Poppy?

It is, you lucky fellas. I stopped glamour modelling over six months ago, but I felt the urge to do one more final session. Just 'one for the road', you know?

Are you sure this is last one?

Absolutely. I've had my fun and so I think it's time to move on to bigger and brighter things. I work for a model agency now, selecting new models for the fashion industry, and I love every minute.

What advice do you give new models?
I've got plenty of advice to dish out, and it usually centres around financial matters, pointing out pitfalls the girls may not have thought of. And I know a thing or two about men as well.

Really? Such as?
When you're a model you get a fair few looks from blokes, so you have to develop a degree of self-restraint. You can't sleep with **all** *of them!*

You'd have a lot of fun trying, though.
Tell me about it! A few years ago I was a right tart, and I'd want the attention of every man in sight. I had to calm down in the end.

Got a bad reputation?
No, I was just worn out! I remember going to bed one night thinking, "Hey, I'm on my own!" I enjoy being single and I don't sleep around half as much anymore Not that I've gone off sex – I masturbate loads!

You've got the hang of this smiling lark, Vron.
Oh you lot, really. Have you never heard of the word 'sultry'? I'm a natural born pouter and proud of it, and I only ever smile when I genuinely want to.

What makes you laugh out loud?
Funny accidents, Carry On *films and the daft questions you lot ask me! I swear you do it on purpose…*

Ever laughed during sex?
Not that I can remember. I don't sleep with clowns! Besides, laughing at your partner is hardly sexy, is it? I'm not deadly serious when it comes to sex, but it's more than just a bit of fun to me.

Do you like men with a sense of humour?
Yes, but it's a myth that all women find a man with a sense of humour irresistible. A lot of comedians are hilarious but as ugly as sin.

We're funny.
Yes, you're funny. Funny looking! I can see why you always stay that side of the lens!

Tell us a joke, then.
Okay, what's the difference between a dog and a fox? About eight pints!

Hey, that's good! You could go on stage with gags like that – if we hadn't thrown your skirt and pants out of the studio window, that is…
What? You sods! You didn't, did you? [Laughs] I've got to get dressed soon!

Say 'please' and we'll get them back.
Two can play at that game. What do I like that's big and hard? My brother who's a kickboxer!

Okay, okay, we were joking. We hid your clothes under the table.
Ha! Lost your sense of humour lads?

Now this is more like it: face-to-face with a genuine adult film star.

Are you serious? Surely you know hundreds of them!

We rarely meet a genuine Vivid girl.

Well here I am in the flesh – literally!

So how do you find life in porno?

Hey, that's the adult film industry to you! I love it, thanks.

What's it like rolling out of bed and going to work to have sex?

Isn't it everyone's dream job? When you start it's kind of freaky, but you soon get a… taste for it.

Do you prefer working with men or women?

In this job you take whatever comes your way, and people are always coming here!

We don't doubt that! Are the blokes as 'big' as they look?
You saying they look big to you? [Laughs] Are you comparing their cocks to yours?

No, it's just the TV screen makes 'em look bigger. Honest.
Believe me, the guys I work with are all man. They get a wood and the world knows about it.

Can we lick your pie?
Hmm… yeah, it's all yours. I've dipped my fingers in and tasted it myself. It's real creamy, juicy – and it only cost a dollar!

Astrologer

HOME TOWN:

Cambridge

Yo, hippy-chick! We've never met a glam astrologer before. What star sign are you?

Me? I'm a Sagittarian and quite a fiery one at that. I've got a typical Sagittarian temper which flares up without warning, and I'll often do things without even thinking. I'll often take my clothes off at the drop of a hat, too.

Is that usual for a Sagittarian?

It's not in any of the astrology books I've studied! Maybe I'm not your average Sagittarian, but I do love the feeling of being naked. When it's really hot I like nothing better than getting home and stripping off starkers in the back garden.

Astrology sounds pretty cool!

I'm a hippy at heart so I'm into New Age ideas, and like to experiment with different things. Astrology, crystals, tantric sex, the lot.

And what's your opinion on tantric sex? Is it any good?

Oh, it's amazing! It takes a while to learn but the orgasm you can achieve through it is just so intense. I get hot shivers just thinking about it!

What can it do for us primitive men?
It'll get you in touch with your feminine self.

Ooh! Will we grow fannies then?
I get the impression you don't believe it works.

Far from it. Getting hold of a female side sounds like a good night in.
You have to breathe deeply, like you're having good sex for ages.

Ages? That's impossible.
All it takes is a bit of concentration, not to mention plenty of tissues when you first start off.

What do you predict is going to happen to us?
To you? Let's see… I can picture you talking to a gorgeous blonde girl. She's very horny and you want to fuck her senseless, but she suddenly walks off. Hey, is that the time? I've got to go – bye!
